

INTERNATIONAL ACTIVITY ON CAMPUS

Every year, Linfield proudly hosts students and scholars from across the world. Our international students and scholars bring a rich cultural dimension to the Linfield community, allowing for meaningful dialogue in our classrooms.

In addition to a variety of partial scholarships available for international students, Linfield offers a robust work-study program, for which international degree-seeking students are eligible. The International Programs Office (IPO) provides a broad range of services to international students. Among these are orientation, academic advising, individual counseling, visa and immigration assistance, a friendship family program, a peer mentor program, and local excursions. IPO also works as an advocate for international students on the Linfield campus and liaises with different campus and local offices to improve the international student experience.
