Total Credits		60

Students must attain a GPA of 2.000 and a grade of C or better in all required nursing courses in order to graduate.^{1,2}

¹ The standard for graduate education at Linfield University requires course GPA of 2.70 or higher; due to the pre-licensure nature of this program an exception was made.

² This is not a new policy, but this text was added to the catalog Dec 2022.

Student Learning Outcomes

- Translates, integrates, and applies knowledge from liberal arts, sciences, and nursing science as a basis for professional practice.
- Applies clinical judgment to coordinate, implement, and evaluate evidence-based, quality care.
- Communicates, collaborates, and provides leadership within complex healthcare systems.
- Provides and advocates for respectful nursing care that considers diverse values, cultures, perspectives, and health practices.
- Incorporates informatics and technology in the delivery of safe, quality, and efficient health care.
- Forms a professional nursing identity that demonstrates personal and professional development and a commitment to ethical nursing care with accountability to standards of practice.
